

**Scott Hannah**

**2019 Finalist:  
Unsung Hero Award**

Scott Hannah made the shortlist for 2019 GHI awards in the Unsung Hero category. The judges noted:

*Whilst Scott's general commitment to safety is obvious to all this entry is in reference to a particular exemplary observation and subsequent action that Scott recorded. During his pre-departure walkaround (post Captain and engineer checks), he noticed a small leak from No 1 engine of a B737 due to depart for LGW.*

The judging panel were impressed by Scott's contribution to bigger initiatives to deliver a tangible safety gain at his station and his clear commitment to taking safety from a compliance-based activity and building a culture of safety and security.
